MANITOWISH WATERS ROAD DEPARTMENT

January 4, 2018

DECEMBER ROAD REPORT

What a reversal of fortune from the previous month. This time it started out springtime warm with heavy winds rain and fog then gradually ending with arctic like conditions.

It wasn't an opportune time but the balance of our vacation time was taken during the month (use it or loss it) and finally depleted.

Winter road procedures for the month: PLOWINGS (4)
SCRAPINGS (2)
SANDINGS (2)

The snowmobile crossing signs were installed on 12/12.

MARSTON MOTORS was the selected (11/15) dealer to provide us with the upcoming Ford F450 chassis. TRUCK EQUIPMENT INC. was selected to provide its accessories.

A blower motor to our radiant heater system of our garage addition needed to be replaced.

Jerry Blach
