This drawing is neither a legally recorded map nor a survey and is not intended to be used as one. This drawing is a compilation of records, information and data used for reference purposes only.

Source: U.S.G.S. 7.5-minute topographic quadrangles - Manitowish Lake, Papoose Lake, Powell, and Winchester (1981), Vilas County. Classification derived from LANDSAT Thematic Mapper (TM) satellite imagery from 1991, 1992, and 1993. The classification has been "smoothed" to a 1-acre minimum mapping unit (4 contiguous pixels) from the original 30-meter pixel size. Wetlands smaller than 1 acre and open water pixels were not smoothed. Classification was done at the Wisconsin DNR, GEO Services Section.
