Chairman Sleight called for testimony. Project introduced by Zoning Administrator Thiessen and the applicant's representative, Corban Klug. Project is a 36x60 wood frame building with 10' walls and sided with wood siding and stone to match the house. The garage is to be placed on the site of an existing 22x34 garage, which is to be torn down. Thiessen stated that the lot is 1.74 acres and the area is heavily wooded. A CUP is necessary because once the existing garage is torn down, the new construction will become the third building upon the lot.

Chairman Sleight called three times for further testimony. None given. Secretary Hoehn affirmed that no correspondence regarding the CUP application was received.

Chairman Sleight declared the public hearing closed at 7:08P.M.
