

Airport Operations Report: July 2019

- 1) Weekly mowing operations in effect.
- 2) Rough cut mowing was completed. The blades are so worn that severe vibrations are felt in the tractor while in use. New blades should be ordered/installed before next year's use to prevent damage to bearings, u-joints, and/or gear boxes.
- 3) There remains 1 hangar without an available key. Owner was contacted, and he said he will provide a key on 8/5. Re-inspection appointment made for 8/6 10AM.
- 4) The other inspection covering fire extinguishers is awaiting an appointment to be set.
- 5) New sprinkler system installation completed. Overgrown/dead bushes removed. Trees trimmed.
- 6) Aprons installed in front, and back of the 2 new hangars have been paved. Taildragger lane still sand/rock.
- 7) Assistant Chuck is now gone, but is available in case of an emergency to cover duties. Josh from the town will be starting training soon for fall/winter season help.
- 8) Walt's Petroleum came out to work on inspection discrepancies. Diesel fuel tank modifications are complete. Awaiting ordered parts to arrive to finish 100LL and Emergency Cutoff Switch upgrades.
