

# MANITOWISH WATERS ROAD DEPARTMENT

---

January 9, 2020

## DECEMBER ROAD REPORT

Really goofy weather again for the month. With the warmer temperatures at the beginning of the month giving us wet and heavy snow. By mid month it dropped to 14 below zero and again rising towards the lower thirties by the end of the month with again heavy wet snow and scrapable slush.

Winter road procedures for the month : . PLOWINGS (6)  
SCRAPINGS (5)  
SANDINGS (5)  
WINGING (1)

This is the earliest that we have had to widen up most intersections on the roads due to the amount of snow received.

The BOOM ARM mower has officially been ordered.

Snowmobile crossing signs have been put up on 12/5.

The hydraulic flow situation problem has finally been resolved to the #1 Patrol Truck plow. Additional hoses need to be added along with new couplers. And so far so good.
