

# MANITOWISH WATERS ROAD DEPARTMENT

---

December 5, 2019

## NOVEMBER ROAD REPORT

As it was last year for the month of November, again well below temperatures for the month.

Winter road procedures for the month: PLOWINGS (3)  
SCRAPINGS (2)  
SANDINGS (2)

Three hundred and fifty cubic yards of sand and sixteen cubic yards of salt had been received at our town garage. The salt and sand have been incorporated and put under our salt shed.

Upon approval, the placing of the order for the boom arm mower has been initiated.

The Airport Rd. Christmas lights and banners have been installed. Newly installed Christmas lights and banners have also been installed on Hwy. 51. All ground displays have also been installed throughout the town.

We have been encountering frustrating hydraulic issues to the #1 Patrol Truck's plow. It appears the quick disconnects are becoming defective after a relatively short period of usage. Our vendor has been contacted.

Jerry Blach
