

# Airport Operations Report: Feb. 2020

- 1) Minimal snow plowing efforts in effect in comparison to previous months.
- 2) Completed Bureau of Aeronautics' Rates & Charges Survey for 2019.
- 3) Completed Wisconsin Hazmat Online Planning and Reporting System Tier II Annual Report.
- 4) The Overflow Alarm Box still remains outstanding for repair. Inoperable.
- 5) **AWOS Station:** Still encountering outages when temps go subzero. Request for bids to install a new underground power line is out and awaiting returns.
- 6) Large Plow Truck.  
There is a noticeable improvement to the overheating issue previously experienced since the radiator cap was replaced.  
The truck takes longer to getting hot, but both the engine and transmission are at or slightly above 200F after an hour usage.  
During future maintenance, antifreeze will be tested for strength, and/or water pump pressure.
