

# MANITOWISH WATERS ROAD DEPARTMENT

---

March 9, 2020

## FEBRUARY ROAD REPORT

During the month there was no measurable amount of snow which constituted an official plowing. This is the first time that I can remember that there was no snow plowings during the month of February. Due to that, it gave an opportunity in spending a significant amount of time training Josh behind the wheel of the #1 Patrol Truck. He was introduced to the workings and maintenance aspects of the vehicle. He performed the necessary plowing drills, sandings and scrapings. And handled them admirably .

The material was ordered for the Koller Park piers boardwalk. The frames will be assembled at our shop.

At the Transfer Station an enormous amount of brush was dropped off by a tree service. Even though the brush pad is closed during the winter.

Winter road procedures performed for the month: PLOWINGS ( 0 )  
SCRAPINGS (1)  
SANDINGS (7)
