

MANITOWISH WATERS ROAD DEPARTMENT

April 9, 2020

MARCH ROAD REPORT

Well March is here, the month that should signal the start of spring. So far it appears that way with its lack of snowfall and melting of roadway hard pack.

Winter road procedures preformed for the month : PLOWINGS (1)
SCRAPINGS (3)
SANDINGS (1)

Town road limit signs went on 3/16.

According to SERWE IMPLEMENTS the Boom Arm mower attachment that was ordered on 12/23/19 has been delayed due to the fact that the manufacturer improperly placed the order within their system. It has been rectified and a rush is being put on it to get it to us in a timely fashion.

The waste oil (150 gallons) that has accumulated at our garage has graciously been accepted by LITTLE STAR GARAGE.

On the #1 Patrol Truck the EGR and EGR Throttle Valve Housing needed to be replaced.

For Koller Park 64 feet of 6 foot wide boardwalk and planking has been fabricated for it's upcoming boat docking area.

At the new Chamber addition for it's "Store", wall mounted slat wall panels were installed for it's display area. Also two wall mounted TV's were also installed.

The Town approved tree services and landscapers need to be reminded that they are only allowed to dump Manitowish Water's township material at our brush pad. The amount of material dumped over the last couple of years would have clear cut the entire Manitowish Waters area.
