

Airport Operations Report: June 2020

- 1) Mowing operations are in effect.
- 2) Grass runway 4/22 was fertilized this month. It happened at a good time with light rains before and after application.
- 3) Took Courtesy car in for repairs. Deemed unsafe for use by myself. There was a strong shake in the steering wheel, pulled to the right, and brakes pulsated.

Upper, and lower ball joints were replaced along with tie rod ends, wheel alignment, and brake job was performed on vehicle. Two of the brake calipers were sticking.

Vehicle was brought back since there was still a slight shake in the steering wheel, and vehicle slightly pulled to the right.

Tires were chopped and recommended to be replaced. Tires in process of replacement.

- 4) Adjusted sprinkler system timing and water durations due to the fact that there was little water available for the last zone. System was set for 3 events and 15 minutes for each zone.
- 5) BJ Electric was out to inspect the AWOS power situation. Since both lines are working properly, it was deemed impossible to find where a splice(s) are located. New power feed from terminal is required.
- 6) May delay several weeks for the rough cut operation since there is no fleaczar this year, and many areas the grass is not too overgrown. Normally this is done during the week when fleaczar is scheduled so additional parking is created.
- 7) 4000 gal. of 100LL was purchased to dollar cost the price of fuel down to \$4.49 from \$4.79

Airport Operations Report: June 2020

100LL :

Fuel Pump Odometer. Current: 178095.8
Previous: 176628.3
1467.5 gal.
QTPOD sales: 1467.45 gal.

New fuel price is: **\$4.49/ gal. (Old price \$4.79)**
Approximately **10985 gallons** on hand.

June '20 Fuel sales: **1467.45 gal. for \$6745.17**
YTD '20 Fuel sales: **3087.58 gal. for \$14505.56**

Diesel:

Fuel Pump Odometer. Current: 78077
Previous: 77825.7
251.3 gal.

Airport June Fuel used: **122.45 gal.**

Airport YTD Fuel used: **459.4 gal.**
